Firmware Upgrading Step by Step Procedure

Video Tutorial: http://www.youtube.com/watch?v=9fqeSFuEs2A&feature=player_embedded

1. Check the current baseband/firmware installed. Go to Menu > Settings > About Device.
   - *Upgrade to above recommended firmwares if it's using different version.*
   - *Turn-On Tablet, go to Settings > Applications > Development. = For Gingerbread*
   - *Turn-On Tablet, go to System Settings > Developers Option. = For Ice Cream Sandwich*
   - *Turn-ON USB Debugging & Stay Awake.*
2. Connect the Tablet to PC and double-click DPInst to install the required USB Driver for your OS.
3. After installation, disconnect your Tablet to PC and Turn it OFF.
4. Extract the Livesuit Pack into a folder on your PC.
5. Place the Firmware .img file inside the Livesuit Pack folder and double-click Livesuit.exe:
   - *1st pop-up window click YES.*
   - *2nd pop-up window click FORMAT.*
   - *3rd pop-up window click NEXT.*
   - *4th pop-up window click YES.*
   - *5th pop-up window locate your selected FW image file and click OPEN.*
   - *6th pop-up window click FINISH.*
6. For Ainol Novo7 Advanced, press and hold the +Volume Button and connect the Tablet to PC.
7. For Ainol Novo7 Advanced-II, press and hold the -Volume Button and connect the Tablet to PC.
8. As soon as you connect the USB Cable to PC, rapidly press the Power button 6 times without releasing the Volume Button.
   - *7th pop-up window click: (YES = Complete Format) (NO = Re-Flash to same Firmware)*
   - *8th pop-up window click: (YES = Complete Format)*
9. You can now release the Volume Button and wait for the upgrading to get finished.
   - *9th pop-up window click FINISH or OK.*

===

IF Firmware Upgrading Fails, just press Power button for 30seconds and do the Firmware Upgrading again.

===
