

This morning, my Google Pixel 8 Pro (mit Android 14) hat aus unerklärlichen Gründen Anrufe von dem Handy meiner Frau direkt an die Mailbox weitergeleitet, während Anrufe von anderen Nummern durchkamen.

Im Anrufprotokoll des Telefons hat der Name/Kontakt meiner Frau ein durchgestrichenes Kreissymbol daneben, was darauf hindeutet, dass sie blockiert wurde. Wenn ich auf "Verlauf" für den Kontakt meiner Frau klicke, werden tatsächlich alle Anrufe, die ich heute von ihr erhalten habe, als "Blockierter Anruf" gekennzeichnet.

# Ai Essay Writer

How is the EduWriter.ai platform uniquely designed to produce original content that is free of plagiarism?

EduWriter.ai is a coined tool that simplifies the process of writing essays and reports for students and researchers. Our current system of plagiarism checking is advanced. We guarantee the authenticity of your writing, so you won't accidentally plagiarize. However, it will simplify and smoothen the writing process for you.

Do you want me to give you an exact plan for my essay or some references?

Certainly! A user knows how to guide the EduWriter to detail answers to the given essay prompts by using our 'Add Instructions' function. In case you want specific documents, such as scholarly articles, to be used in the corpus of your essay or your article needs to be built around some textual sources, just put your request. One instance is where a passage from Einstein's paper is highlighted; in this case, the participants might be requested to include the excerpt in their instructions. The more precise your instructions, the higher will the quality be. They comprise situation-specific questions to all the sources you want to add into your paper. We certainly recommend to give it a try as it usually inspires not just the great but also the precise and accurate paper.

[EduWriter.ai](#), how can it manage In-Text Citations?

The technology that we have developed has the MLA format, which is used for in-text citations. We reference only those details that have been sourced through an intensive research process with publications who have MLA formats. The system we have is unsurpassed among other tools in terms of its ability to smooth the transition from a quote to the actual text.

[Paraphrasing Tool](#)

Is there a way you plan to integrate multimedia elements, or perhaps add video suggestions to the application?

[Yes! Ai Essay Writer](#) provides this video selection functionality in order to make your essay more captivating and engaging by featuring key points and video clips from YouTube. We have developed a "Visual Aid" feature that recognizes YouTube videos based on the words you write in your research paper, thereby matching them with your content. We are very proactive and seek to improve our model for delivering the most relevant video recommendations.
